

Proposed EV Charging Sites

A site assessment has been undertaken to estimate the most efficient use of the council owned car parks throughout Fife in order to meet future EV charging demand. An initial long list of 165 available council owned car parks was identified, which was then narrowed down to a shortened list of sites using the 2026 EV charging demand at a settlement level, qualitative assessments and detailed feedback from Fife Council. Furthermore, the viability of sites will depend on the available power on the grid, with the power assessments that SPEN will undertake as part of this assessment providing some indication of power availability. This will need to be monitored continuously between the development of the strategy and the implementation and operation of charge points.

This assessment focused on outlining a proposed charging approach by primary centres, secondary centres and small towns. The shortened list (80 sites, of which 60 are new) is outlined below. Please note some of these are existing sites and the table below is additional provision.

Sites with existing charge points are highlighted in blue.
