

## Environment & Protective Services Sub-Committee

*Due to Scottish Government guidance related to COVID-19, this meeting will be held remotely.*

Thursday, 27 May, 2021 - 10.00 a.m.

---

### AGENDA

Page Nos.

1. **APOLOGIES FOR ABSENCE**
2. **DECLARATIONS OF INTEREST** – Members of the Committee are asked to declare any interest(s) in particular items on the agenda and the nature of the interest(s) at this stage.
3. **MINUTE** – Minute of meeting of Environment & Protective Services Committee of 25 March 2021 3 - 5
4. **FLOODING UPDATE** – Report by the Head of Assets, Transportation and Environment 6 - 21
5. **ENVIRONMENT & PROTECTIVE SERVICES SUB-COMMITTEE FORWARD WORK PROGRAMME** 22 - 23

**Members are reminded that should they have queries on the detail of a report they should, where possible, contact the report authors in advance of the meeting to seek clarification.**

Morag Ferguson  
Head of Legal and Democratic Services  
Finance and Corporate Services

Fife House  
North Street  
Glenrothes  
Fife, KY7 5LT

20 May, 2021

If telephoning, please ask for:  
Elizabeth Mair, Committee Officer, Fife House  
Telephone: 03451 555555, ext. 442304; email: Elizabeth.Mair@fife.gov.uk

Agendas and papers for all Committee meetings can be accessed on

## 2021 EPS 72

### THE FIFE COUNCIL - ENVIRONMENT & PROTECTIVE SERVICES SUB-COMMITTEE- REMOTE MEETING

25 March, 2021

10.00 a.m. – 11.55 a.m.

**PRESENT:** Councillors Ross Vettrains (Convener), David Barratt, Rod Cavanagh, Gavin Ellis, David Graham, Sharon Green-Wilson, Jean Hall-Muir, Andy Heer, Gordon Langlands, Alice McGarry, Derek Noble, Dominic Nolan, Jonny Tepp and Jan Wincott.

**ATTENDING:** Ken Gourlay, Head of Service, Derek Crowe, Senior Manager (Roads & Transportation Services), Rick Haynes, Lead Consultant, Flooding, Shoreline and Harbours, Assets, Transportation and Environment; Nigel Kerr, Head of Protective Services, Lisa McCann, Service Manager, Environmental Health (Food & Workplace Safety), Economy, Planning & Employability Services; Elizabeth Mair, Committee Officer, Legal & Democratic Services.

**ALSO ATTENDING:** Stuart Neill, External Affairs Manager, Kevin Poot, Technical Manager and Kylie Bishop, Environmental Engineer, ExxonMobil (for Para. 183 only); Chief Superintendent Derek McEwan, Police Scotland.

**APOLOGIES FOR ABSENCE:** Councillor Judy Hamilton.

#### 181. DECLARATIONS OF INTEREST

No declarations of interest were submitted in terms of Standing Order No. 7.1.

#### 182. MINUTE

The Sub-Committee considered the minute of meeting of the Environment and Protective Services Sub-Committee of 28th January 2021.

##### Decision

The Sub-Committee agreed to approve the minute.

#### 183. PRESENTATION - FIFE ETHYLENE PLANT, MOSSMORRAN

Kevin Poot, Technical Manager and Kylie Bishop, Environmental Engineer, ExxonMobil, gave a presentation providing details of a proposed new enclosed ground flare to reduce flaring, noise and vibration from the Mossmorran Plant, along with information on their Environmental Monitoring Plan. Following this, Mr Poot, Ms Bishop and Stuart Neill, External Affairs Manager, answered questions from the Committee.

##### Decision

The Sub-Committee thanked Mr Neill, Mr Poot and Ms. Bishop for their attendance and the information provided.

184./

**184. APPOINTMENT TO PARTNER ORGANISATION - FIFE ENVIRONMENTAL PARTNERSHIP**

The Sub-Committee considered a report by the Head of Legal and Democratic Services in respect of a change of membership on the Fife Environmental Partnership following the resignation of Councillor Derek Noble.

**Decision**

The Sub-Committee agreed that Councillor Neil Crooks be appointed to the Fife Environmental Partnership.

**185. ENVIRONMENTAL HEALTH (FOOD & WORKPLACE SAFETY) SERVICE DELIVERY PLAN 2021-22**

The Sub-Committee considered a report by the Head of Protective Services advising of the primary areas of regulatory activity undertaken by the Environmental Health (Food and Workplace Safety) Team and presenting the Environmental Health (Food & Workplace Safety) Service Delivery Plan 2021-22.

**Decision**

The Sub-Committee:-

- (1) approved the Environmental Health (Food and Workplace Safety) Service Delivery Plan 2021-2022; and
- (2) noted the impact of the Covid 19 Pandemic on the Environmental Health (Food and Workplace Safety) Team activities, along with the work undertaken to restart inspection and intervention programmes when restrictions and demands permitted.

**186. POLICE SCOTLAND PERFORMANCE REPORT QUARTERS 1, 2, 3 2020/2021**

The Sub-Committee considered a report by the Chief Superintendent, Police Scotland, presenting the Fife Division Performance Report for Quarters 1, 2 and 3 of 2020/2021.

**Decision**

The Sub-Committee noted the information contained in the report.

**187. SEVERE FLOODING - AUGUST 2020 UPDATE**

The Sub-Committee considered a report by the Head of Assets, Transportation and Environment providing an update on progress of investigation and mitigation works relating to the August 2020 flood events across Fife.

**Decision**

The Sub-Committee:-

- (1)/

## 2021 EPS 74

- (1) noted that work continued with the investigation and development of solutions where appropriate on the collated Priority Flooding List;
- (2) noted that the Head of Assets, Transportation and Environment would consult with the Convener with a view to clarifying the RAG status relative to the investigation at each location where flooding occurred; and
- (3) agreed that a further update report be provided to this Sub-Committee at its next meeting.

### 188. **ENVIRONMENT & PROTECTIVE SERVICES SUB-COMMITTEE FORWARD WORK PROGRAMME**

The Sub-Committee noted the current Environment, and Protective Services Sub -Committee Forward Work Programme, which would be updated as appropriate.

-----

27 May 2021

Agenda Item No. 4

---

## Severe Flooding - August 2020 Update

---

**Report by:** Ken Gourlay – Head of Assets, Transportation and Environment

---

**Wards Affected:** Fife wide

---

### Purpose

---

To update the Sub Committee on progress of investigation and mitigation works regarding the August flood events across Fife and seek agreement to the proposed list of projects identified for progression in the capital works programme in 2021-23.

### Recommendation(s)

---

It is recommended that the Sub Committee:

- 1 Note that work continues with the investigation and development of mitigations where appropriate on the collated Priority Flooding List; and
- 2 Agree that the projects identified in paras 3.2 and 3.4 of this report are progressed within the flooding capital programme in 2021-23.

### Resource Implications

---

One-off revenue funding of £0.450m has been made available in 2021-2022 to progress the investigation and low-cost repairs programme. In addition, Capital Funding of £0.500m per annum has been allocated for a 10 year period from the financial year 2021-22 to deliver slightly larger and more complex projects. The initial programme of such flooding works has been identified to progress the first phase of larger flood mitigation interventions.

### Legal & Risk Implications

---

There is a risk that continued reactive mitigation could lead to a higher number of claims made to the Council for remuneration in line with perceived Council liability to protect private property. Carrying out investigation and follow up works will help to mitigate against this risk.

### Impact Assessment

---

An EqlA and Environmental Impact Assessment is not required as this report does not propose a change or revision to existing policies and practices.

### Consultation

---

Consultation has been undertaken with, Scottish Water, Finance and Corporate Services.

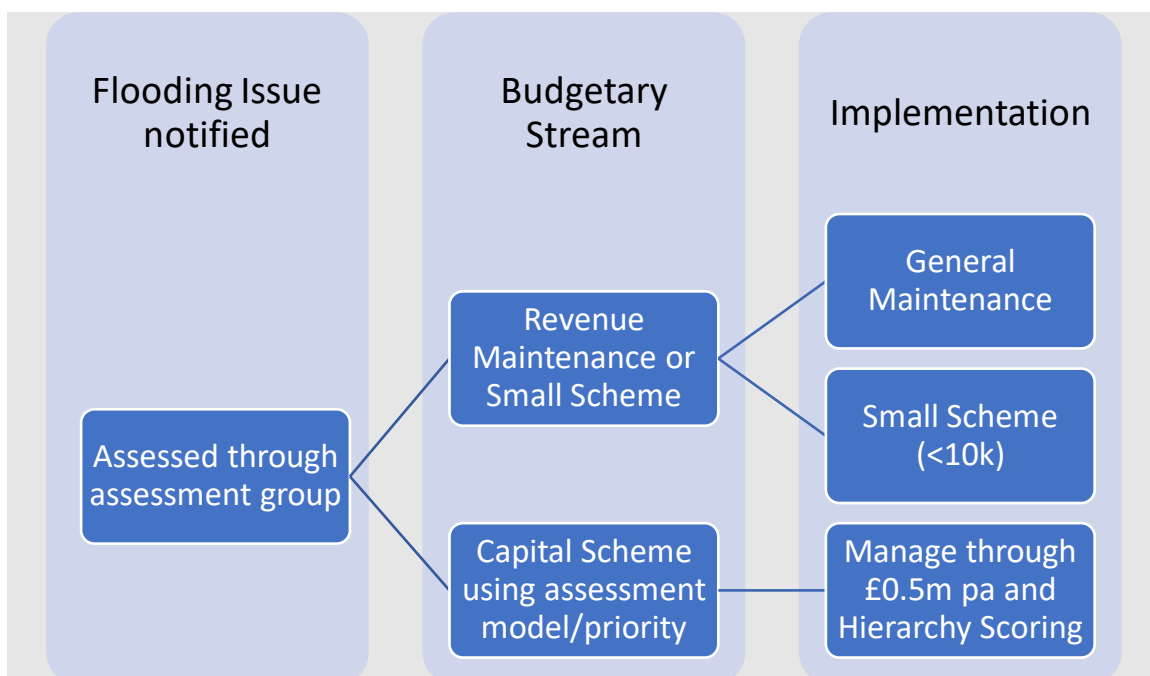

# 1.0 Background

1.1 This report is submitted to the Environment and Protective Services Sub-Committee in line with the request set out at the previous Committee meeting (Para 177 of 2021 E&PS 69 refers) which required officers to provide an update on work being done on assessing sites affected by flooding.

# 2.0 Update

2.1 As flood records are provided to the Flooding team, they will be assessed, and classified via the Red/Amber/Green (RAG Status) Risk Assessment process. From there, the flood record locations are subjected to prioritisation and advancement within available resources.

2.2 The Prioritisation process includes the collection of flood information, the identification of the core Budgetary Stream that each response fits into (annual revenue road drainage or flood protection, and the £5m Capital budget), and ultimately the Implementation route required.

2.3 Following refinement / Quality Control, the Fife Council Flood Register currently contains 451 records, all of which have been through the RAG Risk Assessment.

2.4 The status of the Register as provided in Appendix 1 to this report is as follows:

Flood Record Classification	Record Count	% of Total
To be Investigated	328	73%
Investigated but No Mitigation Feasible	5	1%
Under Investigation	57	12%
Mitigation Implemented	61	14%
<b>Grand Total</b>	<b>451</b>	<b>100%</b>

2.5 Collaborative working with Scottish Water is also being progressed where there is a joint responsibility, or where the flooding reported in August was attended by Fife Council staff on a reactive basis, however it was noted that the flooding was from Scottish Water assets. This collaborative work will continue for all sites reported and will progress and inform future discussions for sites occurring from any future flood events.

Investigation by	Records covered
FC/MOD Investigation	3
Investigation FC and NHS	1
Investigation FC only	108
Joint investigation with SW	209
Passed to SW	6
<b>Grand Total</b>	<b>327</b>

2.6 Fife Council assessments have currently produced a number of proposed Schemes associated with the above Flood Register. The number of Schemes developed will increase over time and could result in flood mitigation activities, depending on the findings of any investigations.

2.7 The current Scheme list is as follows:

Scheme Name	Associated Flood Records	Scheme Status	Cost Estimate	Progressing R&TS Team
Cairneyhill	3	Scoped	£TBC	Structural Services
Culross	6	Scoped	£TBC	Structural Services
Foulford Road, Cowdenbeath	1	Scoped	£TBC	Structural Services / Roads Network
Freuchie Mill	2	Scoped	£0.125m*	Structural Services / Roads Network
High Valleyfield	2	Scoped	£30,000*	Structural Services
Hill Street, Cowdenbeath	7	Scoped	£0.190m*	Structural Services
Kinglassie	8	Scoped	£75,000*	Structural Services
Lade Braes	1	Designed	£40,000	Structural Services
<b>Grand Total</b>	<b>30</b>			
<b>Plus</b>				
Pan Ha	0	Designed	£70,000	Structural Services
B939 Morton Blebo	0	Designed	£50,000	Roads Network

NOTE: \*Investigation costs

Projects resulting from ongoing investigations will be funded through the £0.500m per annum Capital allocation. The above costs are only estimates at this stage.

2.8 Items above noted as 'Scoped' include an initial estimate of costs only. The cost is likely to increase following specialist inspections where needed, and the design process.

2.9 The above list does not fully reflect the impacts of flooding by absolute flood record numbers. They are however a result of the cumulative impact of flooding on a community and the surrounding infrastructure.

2.10

- 2.11 As noted above, 7 no. Schemes are ‘Scoped’ and 3 no. Schemes are ‘Designed’. The former means the Schemes are either requiring investigation or are under investigation. The latter Schemes have been investigated and mitigation options have been designed.
- 2.12 A number of locations have been identified as requiring preventative sediment management. These locations have been reviewed with external regulatory bodies and will be progressed through the middle of 2021. The locations are as follows:

Site	Clearance Conditions	Start Date
Den Burn, Cardenden	No environmental constraints.	Commence June following contract award.
River Ore, Cardenden	Fish rescue required / Otter survey required – works cannot start until these works have been completed, and fish spawning has completed.	Between June – August following contract award and environmental surveys required.
Kinghorn Burn, Kinghorn	No environmental constraints.	Commence June following contract award.
Tiel Burn, Kirkcaldy	Due to proximity to coastal waters, works cannot start fish spawning has completed.	Between June – August following contract award and environmental surveys required.
Kinness Burn, St Andrews	Due to proximity to coastal waters, works cannot start fish spawning has completed.	Between June – August following contract award and environmental surveys required.
River Eden, Strathmiglo	No environmental constraints.	Commence June following contract award.
River Ore, Thornton	Fish rescue required / Otter survey required – works cannot start until they’ve been completed, and fish spawning has completed.	Between June – August following contract award and environmental surveys required.
Lochty Burn, Kinglassie	No environmental constraints.	Commence June following contract award.

- 2.13 Additional Flood Pods have been ordered for sites in Freuchie, Kinglassie and Culross. These will be installed using the £0.450m funding agreed for financial year 2021-22, by Policy and Coordination Committee 18 February 2021. Further locations will be identified and progressed as capacity allows.

### 3.0 Next Steps

- 3.1 Schemes that have been Scoped will be subject to investigation to allow designs to be developed. Delivering Flooding schemes can be a complex and time-consuming process and there will need to be an element of flexibility in delivering identified schemes. Should a project be delayed, it would be intended to advance a future approved project to continue the expenditure on flooding priorities.

- 3.2 The following Schemes are proposed to be implemented during the remainder of this financial year using the £0.5m Capital allocated to financial year 2021-22:

Scheme Name FY2021-22
Kinglassie
Freuchie Mill
Culross
Pan Ha
Cairneyhill
Foulford Road, Cowdenbeath
Lade Braes

- 3.3 As the scheme designs progress, firmer budget planning figures will be identified and managed within the available budget. Updates on progress will be reported quarterly with details also included within the relevant Area Committee Roads Programme reports.
- 3.4 The remaining Schemes on the current list will be carried over to the next Financial Year, and will be added to by any other Schemes that are developed through the Prioritisation process:

Scheme Name FY2022-23
High Valleyfield
Cowdenbeath
B939 Morton Blebo

- 3.5 New potential Schemes will be developed on an ongoing basis and prioritised accordingly with updates provided on progress and future proposals.
- 3.6 Limited key information will be provided online at: <https://www.fife.gov.uk/kb/docs/articles/roads,-travel-and-parking/roads-and-pavements/area-roads-programme>. This will provide a timeline for works to commence on specific schemes.
- 3.7 The progression of these works will be the primary function of the additional 1 FTE post expected to be appointed and commence employment in the latter half of June 2021.

## 4.0 Conclusions

---

- 4.1 The impacts of such storm events in late 2020 require equivalent levels of investigation and design to deliver mitigation measures to manage repeat flooding in the same locations.
- 4.2 With the commencement of investigations, development of a work plan and employment of a further permanent member of staff to lead in the delivery of these actions within the Flooding, Shoreline and Harbours Team, within Structural Services, it is hoped that works can be seen “on the ground” that will improve confidence in flood risk management moving forward.
- 4.3 Time is now needed to expand the team, delve into the large list of investigation sites during this calendar year and it would be appropriate to update committee on progress by late autumn/early winter.

## List of Appendices

- Appendix 1: Fife Council Flood Register

## Background Papers

The following papers were relied on in the preparation of this report in terms of the Local Government (Scotland) Act, 1973:

- Policy and Coordination Committee 18<sup>th</sup> February 2021
- Environment and Protective Services Sub Committee papers of 3<sup>rd</sup> December 2020 and 28<sup>th</sup> January 2021
