

What are gull proof sacks?

- They are strong re-usable bags made of thick plastic that hold 2/3 standard sized commercial waste sacks.
- The gull proof sack should prevent your waste sacks from blowing away, being punctured and causing litter – all which your business is responsible for.

How to use your gull proof sack

- Clearly display 'business name' and 'waste contractor name' on gull proof sack.
- Put your commercial waste sack inside gull proof sack – ensure lid is closed – place at kerbside for collection.
- Only put out on collection days.
- In the centre of St Andrews - you must only put commercial waste sacks and seagull proof sacks out between 0730 am – 1030 am. Please see www.fife.gov.uk/binsoffstreets for further information.
- Gull proof sacks must be removed from the street after collection.
