

What are gull proof sacks?

- They are strong re-usable bags made of thick plastic that holds 2/3 standard sized commercial waste sacks.
- The gull proof sack should prevent your waste sacks from blowing away, being punctured or causing litter – which your business is responsible for.

How to use your gull proof sack

- Clearly display 'business name' and 'waste contractor name' on gull proof sack
- Put your commercial waste sack inside gull proof sack – ensure lid is closed – place at kerbside for collection.
- Only put out on collection days.
- Gull proof sacks must be removed from the street after collection.
